AQwaVit®

CUSTOMER GUIDE

Truly at home in your own house

Everything about the AQwaVit® Water Vitaliser and the AQwaVit® Home Cleanse Complete: why, how and what you get out of it

Vital living in a vital environment

Welcome

Dear reader,

I'm glad you're holding this guide. You're considering having your water and your home vitalized. Then you deserve a clear answer to three questions: why would you do this, how does it work, and what do you get out of it in concrete terms?

I'm Lode Denecker, pharmacist and founder of AQwaTech. For more than fifteen years I've seen how strongly the place where people live shapes their sleep, their energy and their mood. Families who do everything right, eat healthy, get enough exercise, make time for each other, and still can't find peace in their own home. I see this more often than you would think.

In this guide I explain what the AQwaVit® Water Vitaliser and the AQwaVit® Home Cleanse Complete do, and why they belong together. You'll also read what you can expect, step by step. Without jargon. With what research found, and with what customers themselves say.

After reading, you'll know exactly whether this is right for you. Still have a question? Feel free to call me.

Warm regards,

Lode

IN THIS GUIDE

1 · Why	Why the place where you live determines so much, and what research says about it.
2 · How	How the AQwaVit® Water Vitaliser and the AQwaVit® Home Cleanse Complete work.
3 · What	What you get, what you can expect, and how to start in six steps.

PART 1

Why

Why the place where you live determines so much

WHY

A supportive living environment: the foundation under everything else

What's in it for you? *You understand why the place where you live determines so much, and why everything else gets more room once that place supports you.*

Anyone who wants to live consciously, happily and healthily usually works on themselves: eating healthy, getting enough exercise, getting rest, working on your inner balance. That is, and remains, the essence. But how lasting is that balance if your living environment doesn't evolve along with you?

Your environment is not a passive backdrop. It has a **constant and direct influence** on your wellbeing, day and night. A harmonious living environment strengthens and anchors your inner balance. An environment full of invisible burden undermines all your efforts.

Just as a fish is not separate from the water it swims in, you are not separate from your environment.

If you live in a burdened environment, everything you do costs more energy. It's like constantly **walking against the wind**. You can work as hard as you like on your wellbeing: that environment keeps working against your recovery.

If that environment becomes supportive, everything turns around. The headwind becomes **wind at your back**. You sleep better, you have more energy, you stand firmer on your own two feet. And everything else gets more room: your relationships, your work, your own growth. That's why a supportive living environment is not an extra for me. **It is the foundation.**

WHY

Some homes give energy. Others take it.

What's in it for you? *You learn to recognize whether your home gives you energy or costs you energy, and why that isn't because of you.*

Your home is the place where you spend the most time. You sleep there, you recover there, you live there with your family. If that place supports you, you feel it every day. If it works against you, you feel that too. You just often don't know **why**.

Signs that can point to a burdened home

You don't have to recognize all of them. Often it's only a few.

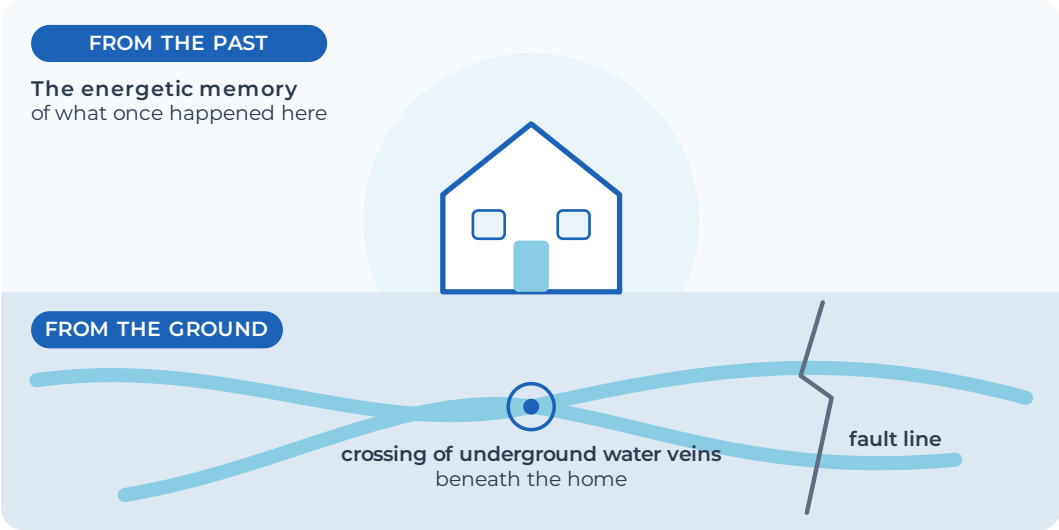

1. You sleep restlessly and don't wake up rested in the morning.
2. Children become inexplicably restless, angry or tearful. Pets become restless too.
3. There is a striking amount of illness in the house.
4. There is a lot of discontent and tension among the residents.
5. You don't really like being at home, and look for reasons to be away.
6. A chill hangs in the house, even in warm weather.
7. Damp spots and discoloration on the walls, a garden that just won't dry out.
8. Long-running quarrels, or no longer any contact with the neighbors.
9. Visitors can't find their way: your home or business seems "invisible".
10. A building project or renovation that drags on endlessly, costs too much and doesn't run smoothly.
11. Fire, theft or flooding.

Do you recognize a few? Then you're certainly not alone. **Disharmony attracts disharmony**: a burdened place attracts burdensome circumstances, as long as the cause remains unchanged.

WHY

Two kinds of burden

What's in it for you? *You know where burden in a home comes from: from the ground and from the past.*

1. From the ground: geopathic burden

"Geo" means earth, "pathy" means making sick. It concerns vibrations and fields that come from the interior of the earth and carry through to the surface. Examples:

- **Underground water veins**, underground streams of water, and especially the places where two underground water veins cross.
- **Fault lines** in the subsoil.
- **Earth rays**, the network of lines that runs like a grid across the earth's surface.
- **Negative vortexes** in the subsoil.

You can't see them, but you do feel them. The classic example: **a bed above a crossing of underground water veins**. Whoever sleeps there tosses and turns, wakes up tired and doesn't know why.

2. From the past: the energetic memory of a place

Whatever has ever happened and been lived through in a place leaves an energetic imprint. This is not a complete list, but these are the most important imprints that the treatment transforms:

- **Negative thoughts** of former residents.
- **Disturbed emotions** such as anger and fear, and emotional traumas.
- Entities: forms of life without a physical body, such as the deceased who have not yet gone into the light. Also poltergeists, which cause strange noises.
- Places where someone was murdered, or died suddenly or violently.
- Places where someone ended their own life.
- Regions where war has raged, such as the Westhoek.
- **Lower energies** that are specific to a place or a region, and a disturbed spirit of the land.
- **Dimensional problems**: there is no proper separation between different dimensions. As a result, other burdensome energies are often attracted.

Such imprints can linger for centuries, sometimes even thousands of years, whether or not a house stood there before. That's why this **also happens in new construction**. Building a new home or tearing down an old one doesn't resolve the origin.

And then there is your water. Water has a memory. It carries along the old, burdensome information it once came into contact with. The Japanese researcher Masaru Emoto made visible how water responds to information, with his photographs of ice crystals.

Water crystals, photographed by Masaru Emoto. His lab also tested the Penta Power Tags of our sister brand, and awarded Penta Power the Emoto label in 2012.

That reaction of water to information was also **studied double-blind**, by an American team together with Emoto. About 2,000 people in Tokyo directed positive intentions at water in a shielded lab in California. One hundred

judges did not know which water was which. Even so, they found the ice crystals of that water on average more beautiful than those of the control water.

Source: Radin D, Hayssen G, Emoto M, Kizu T. Double-Blind Test of the Effects of Distant Intention on Water Crystal Formation. EXPLORE (Elsevier), 2006. DOI 10.1016/j.explore.2006.06.004.

It's not you. It's the place. And you can do something about a place.

WHY

What research says about burdened places

What's in it for you? *You know what research has established about burdened places.*

Sleeping in a burdened place: Lower Austria, 103 participants

Commissioned by the government of Lower Austria, scientists studied the sleeping places of 103 people between 12 and 74 years old. Dowsers identified burdened and neutral places, and according to the researchers the trial was set up double-blind. Of the people with sleep problems, **63% were found to sleep in a burdened place**. The participants' skin conductance, a measurable indicator of tension in the nervous system, was also **clearly higher** in burdened places. The researchers concluded that such zones are to be regarded as an additional influence on health.

Source: Konta B, Frank W, Dechant E. „Geopathogene" Zonen im Wohnbereich und Stress. Report commissioned by the Niederösterreichische Landesregierung, Wohnbauforschung department, 2007. Sleep problems: p = 0.029.

Sitting briefly in a burdened place: Salzburg, 26 participants

Researchers in Salzburg had two dowsers, independently of each other, identify a burdened and a neutral zone in a single lab room. They lay right next to each other: the same light, the same sound, the same white wall. Twenty-six participants sat in each for fifteen minutes at a time, in random order. They **did not know which spot they were sitting in**.

In the burdened zone the participants felt **clearly worse**: less comfortable, more tired, less well. Their overall wellbeing was significantly lower than in the neutral zone.

Source: Augner C, Hacker GW, Jekel I. Geopathic Stress Zones: Short-Term Effects on Work Performance and Well-Being? The Journal of Alternative and Complementary Medicine, 2010;16(6):657–661. DOI 10.1089/acm.2009.0499. Blinded and randomized, 26 participants. Wellbeing: p = 0.01. Reaction test: no effect.

So the idea that the place where you sleep or sit helps determine how you feel has been researched. And it points in the same direction as what customers tell us every day.

It shows up with machines too

It's not only people who react to it. In a 2021 review article, the researchers Tong and Kong reviewed the research on burdened places. Among other things, they refer to observations that machines in such a place **develop mechanical and electrical defects more often** than the same machines in a neutral place.

Source: Tong ES, Kong CK. An overview of Impact of Geopathic Stress on Environment and Human Health. Progress in Drug Discovery & Biomedical Science, 2021;4(1):a0000174. DOI 10.36877/pddbs.a0000174.

The AQwaVit® Water Vitaliser.

WHY

Why you need both

What's in it for you? *You know what each of the two does, and why you only get the full result together.*

The AQwaVit® Water Vitaliser and the AQwaVit® Home Cleanse Complete each do something different. Only together do they give a lasting result.

AQWAVIT® WATER VITALISER
lays the foundation
neutralizes and keeps the result, day and night

+

AQWAVIT® HOME CLEANSE COMPLETE
transforms
turns the burden into supportive energy, in twelve weeks

The AQwaVit® Water Vitaliser is the foundation. It vitalizes your water, day and night. But the vitalized water is only the start: through your water pipes your entire living environment is vitalized. At the same time it neutralizes the energetic burden in your home. That is how it lays the foundation for the AQwaVit® Home Cleanse Complete: on that foundation the treatment can fully transform the burden.

The AQwaVit® Home Cleanse Complete goes much further. Neutralizing alone is not enough. The treatment transforms the burden: it turns it into supportive energy. Even the heavy, old and stubborn layers. Only then does your environment become truly supportive.

Together they reinforce each other. The AQwaVit® Water Vitaliser makes the AQwaVit® Home Cleanse Complete even more effective: it carries the treatment during the twelve weeks. And it makes sure the result is preserved after the treatment has ended. Burdens that still come in later, for example through visitors or through what you bring into your home, are immediately transformed away. That way they can't linger, and they don't bother you either.

That is why the AQwaVit® Water Vitaliser is not an option alongside the treatment, but a prerequisite. Without the AQwaVit® Water Vitaliser the treatment **cannot hold on to** its result. If you don't yet have an AQwaVit® Water Vitaliser, then you order them together. The treatment starts right away, and you install the device as soon as you receive it. It stays on your pipe during the treatment, and stays there afterward.

PART 2

How

How the AQwaVit® Water Vitaliser and the AQwaVit® Home Cleanse Complete work

HOW

How the AQwaVit® Water Vitaliser works

What's in it for you? *You know what happens in your pipes, and why you notice it throughout your whole home, even if you don't drink the water.*

The AQwaVit® Water Vitaliser consists of **three parts**: a power supply, a control unit and an induction coil that you place around your water pipe.

The control unit and the induction coil around your water pipe.

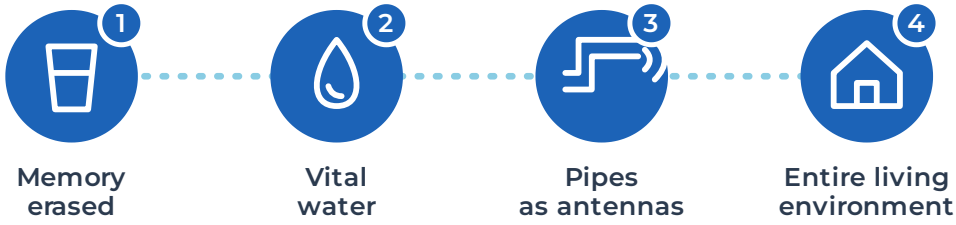

This is how it hangs on the supply line.

The control unit produces a soft, low-frequency signal. The induction coil converts that into a field in the water. As a result the water molecules rearrange themselves. The old, burdensome information the water was carrying **dissolves**.

At the same time we program quantum information into the water. The low-frequency signal serves as a carrier wave: it carries that information into the water. That way the water receives **new, harmonious information** that supports the self-healing capacity of people, animals and plants.

Four steps, from a glass of water to your whole home

1. **The water's memory is erased.** The old, burdensome information disappears from your water.
2. **The water receives supportive information.** That is how it becomes vital water.
3. **Your water pipes become antennas.** All the pipes in your home now carry vitalized water, and radiate it into the spaces around them.
4. **Your entire living environment is vitalized.** The field of the device and the field of the water in your pipes work together.

You notice this on three levels:

- **In your water:** it feels softer and tastes fuller. The Institute for Bioelectrophotonics in Würzburg, commissioned by us, also measured more free electrons in the water.
- **In your pipes and appliances:** in a lab test that UGent carried out on our behalf, much less limescale was deposited. Customers notice that the limescale is finer and easier to remove.
- **In your home:** more calm and harmony, even in the rooms where you never turn on a faucet.

You drink it, you shower with it, and it surrounds you in every room.

HOW

How the AQwaVit® Home Cleanse Complete works

What's in it for you? *You know what happens to your home for twelve weeks, without having to do anything yourself.*

The AQwaVit® Home Cleanse Complete is a **remote course of treatment**, delivered through our AQwaVit® Server System. Nobody comes to your home. There is no extra device in your house. The only thing you install yourself is the AQwaVit® Water Vitaliser on your water line.

Connected through entanglement

One of the laws of quantum physics is **entanglement**: what is connected stays connected, no matter the distance. The treatment is built on this. The AQwaVit® Home Cleanse Complete is entangled with your AQwaVit® Water Vitaliser through the device's serial number. And with your environment, through the address of your home, or for a larger site through the cadastral numbers of the buildings and plots.

Down to zero within 24 hours

The treatment starts right after your payment. Within 24 hours of that start, the burden in your environment is at zero, even if your AQwaVit® Water Vitaliser is still on its way. After that, your AQwaVit® Water Vitaliser holds that baseline, and the real work begins: the treatment transforms the burden step by step into supportive energy.

Twelve weeks as a single whole: first the place, then the people

The treatment consists of two parts of six weeks, which flow seamlessly into each other and reinforce each other. The first six weeks work **on your home and your environment**. The second six weeks work **on the people who live there**.

The first two weeks are **the same for every home**: a broad foundation with a great many different kinds of information.

Each part consists of programs that run in a fixed order. From week 3 they are tailored to your place and **highly personalized**: we carry out quantum-physical measurements, and then specific programs and information follow, aimed at the burdens in your environment and at the people who live there.

The twelve weeks, week by week

Week	Phase	What happens
1–2	Prepare and transform	Your environment is prepared to let go of the old energies. Then the actual transformation of the burden from the ground and from the past begins.
3–5	Tailored	We carry out quantum measurements on your environment. Based on those, a program runs that exists only for your place. It is tuned to the burdens that are actually present at that moment. This is where most of the effect on your home comes about.
6	Anchoring	The tailored work continues, and the results achieved are anchored so that they last.
7–12	Going deeper with the residents	Now that your environment is supportive and clear, it is time to support the residents themselves. The fog has lifted, as it were. Now the treatment can focus more specifically on stimulating the self-healing capacity of every living being in the environment: people, animals and plants.

The twelve weeks at a glance

The AQwaVit® Home Cleanse Complete runs for twelve weeks. The AQwaVit® Water Vitaliser **keeps working nonstop, during and after the treatment**: day and night it gives off its harmonious energy to your water and your environment.

PART 3

What

What you get, what you can expect and how to start

WHAT

What you get

What's in it for you? *You know exactly what you are bringing home, and what you have to do yourself. (Not much.)*

Easy to install yourself

Suitable for all pipes and types of water

Maintenance-free

Less soap and cleaning products needed

Tested at UGent

AQwaVit® Water Vitaliser

- **Power supply, control unit and induction coil**, with the straps to fasten the coil to your pipe.
- **Install it yourself, no plumber needed.** You will find the manual with installation video at aqwavit.com › Installation
- Fits all pipes: plastic, copper, steel, pipe-in-pipe.
- Works on all types of water: tap water, well water, rainwater.
- **No filters, no maintenance.** You only check from time to time that the green light is on.
- Silent and small. Uses very little power: **1 to 1.5 euros per year**.
- Free shipping.
- Two-year warranty.
- Moving? Then you simply take it with you.
- It stays yours.

AQwaVit® Home Cleanse Complete

- A twelve-week treatment, entirely remote.
- Your entire home and your garden, even a large one, in one treatment.
- An email at the start, with the expected end date, and an email at the end.
- One-time. No subscription.

WHAT

What you can expect

What's in it for you? *You know what customers experience, so you can recognize for yourself what changes.*

This is what customers tell us most often. Not everyone notices everything, and not equally fast.

In your water

- It feels softer, in the bath and in the shower.
- It tastes fuller and better.
- **Much less limescale** buildup, and what does deposit is finer and easier to remove.
- You need **less soap and cleaning products**, and less bottled water.

In your home

- **More calm** among residents and visitors. You notice it very clearly in children and pets.
- **Revitalizing sleep**, and more energy during the day, more even and with fewer ups and downs.
- For the first time, **truly feeling at home** in your own home.
- **More harmony** in the family, and with the neighbors too.
- A more pleasant temperature: less chilly in damp weather, fresher in the heat.
- The home smells more pleasant.
- Damp patches and discolorations on the walls diminish or disappear. The garden becomes drier.
- You see more clearly which path you want to take.

With animals and plants

Animals and plants don't know that anything has changed. And yet they often react first.

- **Pets** drink more and are much calmer. A horse owner saw it right away: "The horses are drinking so much more, it really stands out."
- **Houseplants** are visibly healthier, and cut flowers last longer. "I have the impression that the flowers I regularly put in a vase last longer," says Anne.
- **The garden** becomes more lush. Riet, an ecologist with a permaculture garden, uses the AQwaVit® Water Vitaliser and Penta Power Tags and did the AQwaVit® Home Cleanse Complete. "Before, one kind of perennial would do well one year, and then another would take its turn. This year they are all doing well. The rose bush has more roses than ever, the raspberry bush bears many more raspberries, and the flowers and plants are much bigger too."

Customers notice all of this during the treatment, and certainly afterward.

WHAT

What customers tell us themselves

“After a few weeks with the Water Vitaliser and Home Cleanse in the house, we really notice a difference. The water tastes better and feels softer. It has become calmer in the house and we simply feel better too. Less stress, better sleep, everything just goes a little more easily, day by day.”

Lindsay B., physical therapist

“We wanted to move. We had lived in this house for twenty years, but we didn’t like living there. After the Home Cleanse we decided to stay, and to expand our kitchen. The only downside? Harmonious people kept sticking around.”

Jean-Paul

“Since the cleansing of our home and our family members, so much has started moving. (…) A feeling is hard to explain because what you feel goes so much further than our mental thinking. (…) The cleansing brought deeper, pure connections.”

Customer after an AQwaVit® Home Cleanse Complete

“The water tastes fuller, nicer, is odorless and looks clearer. (…) Our cat drinks more water and our orchid is blooming like never before. There is a noticeable effect on the limescale in the water, before the installation we had limescale flakes in the kettle among other things, now the limescale has been reduced to very fine ‘granules’. (…) Since the installation, family and friends have told us several times that for some reason they calm down when they are here.”

Isabelle

“The water is much softer than before and I find this more pleasant when it comes to showering and my houseplants are visibly healthier.”

Noella

AQwaVit® is not intended to diagnose, treat, cure, alleviate or prevent any disease or condition. If you have health problems, always consult your doctor.

WHAT

The effect of AQwaVit®, scientifically measured

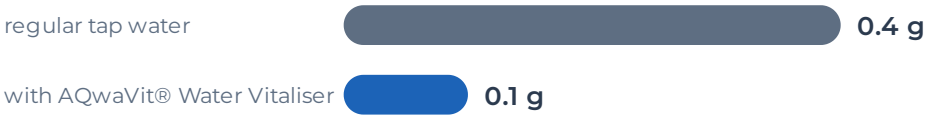

What's in it for you? *You know that the effect has been measured, by whom, and with what results.*

UGENT, 2013

75% less limescale buildup

Commissioned by us, researchers at UGent placed copper plates in heated, limescale-rich water: in treated and in untreated water. With water from the AQwaVit® Water Vitaliser, an average of 0.1 gram of limescale deposited, with regular tap water 0.4 gram.

Limescale on copper plates: 75% less limescale buildup

UGENT, 2013

Soybean seeds germinate better

The same researchers grew two pots of 50 soybean seeds each for five weeks: one pot with water from the AQwaVit® Water Vitaliser, the other with regular tap water. With water from the AQwaVit® Water Vitaliser, **26 of 50 germinated**, with regular tap water 17 of 50. The stems also grew visibly faster. The researchers could not explain this.

Sprouted soybean seeds after five weeks

Soybean seeds don't know they're in an experiment. And yet they grew better.

UGENT, 2013

14 of 20 taste the difference

Commissioned by us, test subjects at UGent tasted regular tap water and water from the AQwaVit® Water Vitaliser. Of the 20 test subjects, **14 tasted a difference**.

14 of 20 test subjects tasted a difference

INSTITUTE FOR BIOELECTROPHOTONICS, WÜRZBURG (GERMANY), 2013

More energy in the water

Commissioned by us, Lutz Rabe of the Institute for Bioelectrophotonics compared treated water with untreated tap water. He used two different measurement methods for this. The water from the AQwaVit® Water Vitaliser had **more energy** and more free electrons. The difference was statistically significant: very likely not due to chance. The technology is protected by European patent EP 2 848 591 B1.

Source: Institute for Bioelectrophotonics (Lutz Rabe), Würzburg, 2013, commissioned by us.

OUR OWN FIELD TEST

Our own field test with basil

We did this test ourselves, at AQwaTech. It is not scientific research, but what we saw ourselves. Basil with water from the AQwaVit® Water Vitaliser germinated faster, formed **about half again as many roots**, especially very fine rootlets, and smelled clearly stronger. The more roots, the more nutrients a plant can absorb.

WHAT

Why this is different from having your home cleansed manually

What's in it for you? *If you have had your home cleansed before, you will understand why the result didn't last.*

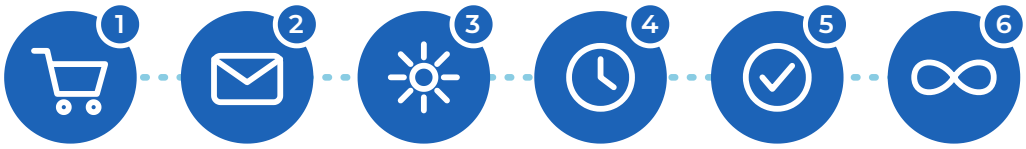

Many of our customers had someone come by to cleanse their home before the AQwaVit® Home Cleanse Complete. Sometimes several times, usually without lasting results. There is a reason for that: with a manual cleansing, everything depends on the person doing it. The origin is **seldom fully resolved**, the time is too short, and there is **no aftercare**. Whatever comes in afterward simply stays.

	AQwaVit® Home Cleanse Complete	Manual cleansing
How it works	Transformation into supportive energy	Neutralizing or moving
Depth	Beyond the origin: from the ground and from the past	On the surface
Duration	Twelve weeks: transforming everything beyond the origin is long-term work	Short, usually one session
Result	Aimed at a lasting result	Often temporary
Depends on who does it	No	Yes
Residents included in the treatment	Yes, in weeks 7 to 12	No
Aftercare	Continuous, via the AQwaVit® Water Vitaliser	None
Needs repeating	Not normally	Often, yes

WHAT

Get started in six steps

What's in it for you? *You know exactly what to do. It's less than you think.*

Order	Starts	Install	12 weeks	Complete	Stays put
therapist or aqwavit.com	right after payment	as soon as you get it	you don't have to do anything	you get an email	your space stays clear

1. **Order your AQwaVit® Water Vitaliser and your AQwaVit® Home Cleanse Complete.** Through your AQwaVit® therapist or at aqwavit.com.
2. **The treatment starts right after your payment.** You'll receive an email with the confirmation and the expected end date. It's perfectly fine for the treatment to run for a number of days before your AQwaVit® Water Vitaliser is installed.
3. **Install your AQwaVit® Water Vitaliser as soon as you receive it.** You do that yourself.
4. **For twelve weeks, the treatment does its work.** You don't have to do anything. Just leave your AQwaVit® Water Vitaliser switched on, even when you're traveling. Questions along the way? If you ordered through your AQwaVit® therapist, you can turn to him or her first. Otherwise, feel free to call or email us.
5. **The treatment is complete.** You'll receive an email.
6. **Your AQwaVit® Water Vitaliser stays in place.** That keeps your environment clear. Any burdens that still come in later, for example through visitors or through what you bring into your home, are immediately transformed away. That way, they can't linger.

Where do you install it?

The goal is for all of your water to be treated. That's why we recommend installing the AQwaVit® Water Vitaliser **directly before or after your water meter**, or wherever the water enters your home.

- **Do you live in an apartment?** Then install it inside your apartment itself, on the line where the water comes in. Not downstairs in the utility room.
- **Do you have a water treatment system, such as a filter or a water softener?** Then the AQwaVit® Water Vitaliser always comes last. As the final water treatment, it removes all the information of the previous water treatments from the water. That is very important.
- **Not sure which pipe is the supply line?** Turn off the valve that you believe is the main valve. If there's no water anywhere in the house after that, you're on the right pipe.
- **Make sure there's an outlet.** The AQwaVit® Water Vitaliser uses very little electricity, but it does need power. If there's no outlet nearby, use an extension cord. Put the control unit in a dry place, not on the floor.
- **Don't have a central main valve?** Then we'll look together for the ideal spot for your device. Send us a few photos of your plumbing via info@aqwavit.com or WhatsApp (+32 (0)50 69 02 45), and we'll show you where it's best placed.

How do you install it?

Example: the AQwaVit® Water Vitaliser right after the water meter.

- Fasten the induction coil to the pipe with the straps. The arrow on the coil follows the direction of the water flow.
- Connect the power supply and plug it into the outlet. The green light comes on.

You'll find all the details and the installation video in the manual:
aqwavit.com › Installation

WHAT

Frequently asked questions

Can I do the AQwaVit® Home Cleanse Complete without the AQwaVit® Water Vitaliser?

No. The AQwaVit® Water Vitaliser is on your pipe during the treatment and stays there afterward. It makes the treatment even more effective and holds the result in place.

Do I need to be home, or install anything for the treatment?

No. The treatment runs entirely remotely. Nobody comes by and there's no extra device in your home. The only thing you do yourself is install your AQwaVit® Water Vitaliser.

Does the treatment also apply to my garden?

Yes. One treatment covers your entire home and your garden, even if it's large.

Why does it take twelve weeks?

To get a lasting result, and to resolve all causes at the source. The burden quickly drops to zero, but neutralizing is not enough. Transforming everything beyond the origin, both from the ground and from the past, and then with the residents as well, is long-term work. Each phase builds on the previous one.

What if the power goes out, or I'm traveling?

The treatment itself runs on our servers and simply continues. Be sure to always leave your AQwaVit® Water Vitaliser switched on, even when you're away. An interruption of a few days does no harm, but the device is needed to hold on to the transformation.

I'm renting, or I'm moving.

The treatment requires no alterations at all to the building. It is tied to the place you did it for. You do take your AQwaVit® Water Vitaliser with you: unplug it, loosen the straps, and in a few minutes it's off the pipe. You'll find new straps at any hardware store. In your new home you install it again, and there you do a one-time AQwaVit® Home Cleanse Complete.

I have a water softener, filter or other water treatment system. Can they be used together?

Yes. Do you have a water softener? With 75% less limescale buildup, you probably won't need it anymore. If you keep it anyway, or if you have a filter or another water treatment system, you can combine the AQwaVit® Water Vitaliser with it perfectly. Important: always install it **after the last installation**. As the final water treatment, it also removes the information of the previous water treatments from the water.

I use tap water and well or rainwater.

Do you use both for drinking, cooking, bathing or showering? Then it's best to install an AQwaVit® Water Vitaliser on each line. If you only use the rainwater for the washing machine or the toilet, one device is enough. Not sure? Send us photos, and we'll look at it with you.

How do I know my device is working?

The green light is on. Most people also taste the difference, and feel it in the shower. They feel the harmony in the house, and visitors notice it too.

When will I notice something?

Most people notice much more calm in the house within a few days. Sometimes it takes a bit longer, up to a few weeks. Occasionally someone only notices it once the treatment is over.

And if I don't notice anything?

That's rare. People who notice little have often felt little for a long time: nothing positive, but nothing negative either. Or your life demands so much attention that you don't notice what is gradually changing. Sometimes your pets or visitors notice the difference before you do. The feeling usually comes later. Not sure? Feel free to call or email us.

Does the device itself emit a field? Is that safe for children?

Yes. The AQwaVit® Water Vitaliser emits a very low-frequency field. That field is harmonious. It is very safe, including for children.

Do I have to provide the residents' names?

No. The address is enough. If you'd still like to provide the names, you may.

Does this also work in new construction?

Yes. Burden can be present in a place for centuries, whether or not anything was built there before. Building new does not resolve the origin. Planning a renovation? Ideally have the treatment done beforehand: a burdened place is a classic reason why construction drags on endlessly and costs too much. Building new on a plot without a water line? Then ask us about the tailor-made treatment for building projects.

We already had the house cleansed. Is this still worthwhile?

Yes. We get that question often. A manual cleansing moves or neutralizes, but rarely resolves the origin completely, and there is no aftercare. The AQwaVit® Home Cleanse Complete transforms the cause, and the AQwaVit® Water Vitaliser holds the result in place afterward.

I already have Penta Power Tags. Do I still need this?

The Tags and AQwaVit® each do something different. The Penta Power Tags transform the radiation from your devices and from outside. The AQwaVit® Home Cleanse Complete transforms the energetic burden of the place itself: from the ground and from the past. The AQwaVit® Water Vitaliser holds that result in place. They reinforce each other.

WHAT

Your investment

What's in it for you? *You know what it costs, and what you get for it.*

	Price	What it is
AQwaVit® Water Vitaliser	**€1,050**	One-time. Stays yours, two-year warranty, no maintenance.
AQwaVit® Home Cleanse Complete	**€900**	One-time. Twelve weeks, home and garden, no subscription.
Together	**€1,950**	

All prices include VAT. The AQwaVit® Water Vitaliser ships free of charge.

You're not just investing in a device, but **above all in the place where you live every day**.

Order

Through your AQwaVit® therapist, or at www.aqwavit.com.

For the AQwaVit® Home Cleanse Complete, you provide **the address of your home** with your order. For a larger site: the cadastral numbers of your buildings and plots. Through these details, the treatment is entangled with your environment. If you order the AQwaVit® Water Vitaliser and the treatment together, we already know the serial number of your device. If you already have an AQwaVit® Water Vitaliser, please also provide the serial number. You'll find it **on the back of your AQwaVit® Water Vitaliser**. Nothing more is needed.

Prefer to talk it over first? Call +32 (0)50 69 02 45, or email info@aqwavit.com.

WHAT

Also tailored to your business

What's in it for you? *You know the treatment also exists for your business, your farmyard or your stable.*

The twelve-week treatment that makes your living environment at home supportive also exists tailored to your business, your farming or horticultural operation and your equestrian business: from shop to factory, from greenhouse to dairy farm, from riding school to stud farm. In the workplace, in the farmyard and in the stable too, the environment helps determine how people work together, how animals feel and how plants grow.

AQwaVit® Business Cleanse

For shops, hospitality, offices, practices, schools and manufacturing companies.

- For the **employees** and their workplace, including those who work from home.
- A better atmosphere and smoother collaboration.
- A place where customers and visitors like to come.

AQwaVit® Farm Cleanse

For livestock farming, arable farming, vegetable, fruit and ornamental growing.

- Works on the farmyard, stables, farmhouse and plots: for **people, animals and plants**.
- Calmer, more vital animals.
- Plants that grow stronger and more evenly.

AQwaVit® Horse Farm Cleanse

For riding schools, boarding stables, stud farms, training and rehabilitation centers.

- Works on stables, arenas and pastures: for **horse and human**.
- More balanced horses that feel better in their own skin.
- A better understanding between horse and rider.

What they have in common

- **Twelve weeks, remotely:** the treatment transforms the burden of the place into supportive energy.
- **At least one AQwaVit® Water Vitaliser** on the main water line lays the foundation and holds the result in place.
- **Matched to your sector:** each treatment has its own programs, for employees, animals or crops. After a conversation, you'll receive a proposal for your business.

Feel free to call me at +32 (0)50 69 02 45 or email info@aqwavit.com. Then we'll look together at what you and your business need.

WHAT

In closing

I wish you a home you love coming home to every day. For you, for your family, and for everyone who walks through the door.

Do you have another question? Feel free to call me, and I'll help you out.

Warm regards,

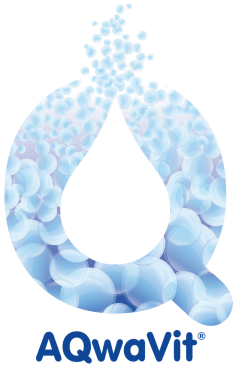

Lode
